

Request for Proposals
Sawfish Conservation Society
Small Research Grant
Sawfish Research & Conservation

Sponsored by: Sawfish Conservation Society

Amount of award: \$1,500 USD

Eligibility: Anyone conducting sawfish research & conservation

Date of Announcement: August 12, 2023

Date Proposals Due: August 26, 2023

Date of Notification of Award: August 31, 2023

Proposal Instructions:

Submit a short (250 words or less) abstract on how the Sawfish Conservation Society Small Research Grant will be used to support sawfish research and contribute to conservation efforts for this charismatic group. This grant may be used to support an existing project or to launch a new project. There are no restrictions on the use of funds, but please be specific on how funds will be used (e.g., funds will be spent to purchase scientific equipment).

Email the below form, abstract, and CV to:
research@sawfishconservationsociety.org by August 26, 2023.

Submissions will be reviewed by the Sawfish Conservation Society Research Committee and a recipient will be selected on August 31, 2023.

The awardee is expected to provide the Sawfish Conservation Society with project updates and photos that can be shared on the Sawfish Conservation Society's social media accounts, including FaceBook, Twitter, and Instagram. Additionally, the awardee is expected to work with the Sawfish Conservation Society Education Committee to produce a blog on the project within 12 months of award receipt.

Sawfish Conservation Society Small Research Grant Application Form

Name:

Institution/Organization:

Country:

Project title:

Abstract:

If award is received, I agree to provide content in form of photos, information, materials, etc. to the Sawfish Conservation Society before October 1, 2023. I agree that the Sawfish Conservation Society may post provided content to social media platforms to advertise the supported research project. I agree to give a webinar open to the public on the supported project within 12-months of receiving the grant.

Note: This grant is separate from the Alan D. Henningsen Conservation Research Grant and proposals will be reviewed by the Sawfish Conservation Society Research Committee. Research Committee members who are directly affiliated with applicants are exempted from reviewing and voting.
